LET US HELP YOU FIGURE IT

If you are figuring on building, or making some repairs about the place and can't figure out just the amount of material it will take and how much it will cost you, come in and let us help you with it. Right now would be a mighty good time to figure on building a barn, as we are a little long on that class of material and can make you money-saving prices. But no matter what you want in lumber, get our prices before buying.
